Scott Orbach, President
EZGSA
7475 Wisconsin Avenue
Suite C8
Bethesda, MD 20824

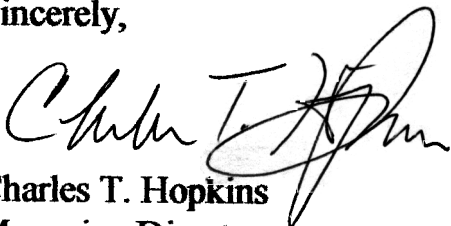

Dear Scott:

I wanted to thank you and your staff for the training and assistance you provided through your course "Gateway to Government Sales." I attended your course last summer and firmly believe that the insights and instruction you provided were immensely helpful in my company's recent contract award with GSA. Corporate Finance Services, LLC ("CFS") was awarded a contract on the GSA's Financial and Business Solutions Schedule under SIN 520-13, Complementary Financial Services.

The money I spent to attend your course was worth every dollar! The intangible value of customer service that both you and William Easley have offered me as additional follow-through has been particularly impressive. You know your product extremely well and you value your customer. In fact, you went the extra mile for my company in assisting us in securing outside contract financing as an additional incentive for GSA to extend us a contract.

Do not hesitate to use me as a reference for any prospective clients. I fully intend to use your other services now that I am actually on the GSA schedule. I look forward to attending your course on marketing to the government buyer. I am certain your instruction will provide the road map to ultimate success in CFS' efforts to establish and to build its government contracting opportunities.

Sincerely,

Charles T. Hopkins
Managing Director
