Dear Judith:

I attended EZGSA's –Contract Management for the GSA Schedule seminar on September 26th, 2006 and wanted to tell you of my very positive experience. I have taken other GSA Seminars that were not nearly as informative as this one.

Judith, you were so knowledgeable and your 15 years of government contracting experience was very apparent. You truly know what you are talking about and know the finite points of GSA contract administration. I also really appreciated the interaction between you and the members of the audience and real life examples that were reviewed during the class.

I plan on taking the Ten Steps for Capturing Federal Government Marketshare Seminar in the near future and I'm sure to have another positive experience. I definitely feel more prepared and informed in my job as a result of EZGSA's class.

Thank you

Sincerely,

Suzanne F. Sweat
