Re: Fran Cowell Letter of Thanks

Dear Scott:

Recently our company was in dire need of EZGSA's services to complete a GSA MOD to our Schedule 70 contract. The MOD process was happening at a time of change for GSA with the new RAM EMod system which we were not ramped up to do on our own. I made a call to EZGSA and within 2 days Fran was in contact with me and working with our GSA CO.

We want to thank Fran and EZGSA for getting us thru the GSA process. We heard from Fran frequently for updates on our EMod and we celebrated together when GSA signed off and our Mod was accepted. Fran is a pleasure to work with and we will call on her services again.

Sincerely,

Kate Dahl, President
