To whom it may concern:

I wanted to write to EZGSA and make sure company management knows how great it was to work through the process of getting our GSA schedule with Ronniece Percy. She was very focused throughout the process and communicated all of the issues and successes very well.

I am not sure we would have made it through the process without her help.

I will highly recommend Ronni and EZGSA to anyone we know that is thinking of going through this process.

Thank you again for all of your help.

Sincerely,
