Mr. Orbach,

I want to commend Ronni Percy for the great job she did in helping us get our GSA Schedule. She guided us through the process without a hitch and answered our questions, even the foolish ones, quickly and thoroughly. She also guided us through the process of adding two additional labor categories with a minimum of input from our part.

We're glad to have had her as our contact and will use her again in the future as other opportunities arise.

Regards,
