Dear Mr. Orbach:

This note is to thank you and your organization for the work you performed for Dow Corning in our quest to gain a GSA Schedule. It was a long and arduous road. One I don't think that we could have traversed without your expertise and professional staff. Magdalena Ilieva especially managed to make the process much less daunting for us than it actually was. She was extremely knowledgeable and was able to lead us through the sometimes confounding GSA Schedule system with ease.

As you know Dow Corning is a rather large organization but with what started out to be a limited understanding of the inner workings of the government sector. One of my main roadblocks was just the aspect of educating Dow Corning personnel and management in what we were trying to accomplish in going after a Schedule and the information the GSA required to get the job done. With Magdalena's help I was able to explain much of what was needed internally which enabled me to convince my management to move ahead with what could be a lucrative market for us.

Please accept my thanks for a job well done. Please let Magdalena know that I truly appreciated her being on the other end of all my phone calls. The comfort knowing I was in such capable hands made the whole process a lot less stressful.

We look forward to using your services in the future.

Regards,
